## Concerts of the Month

### Aaron Lewis of STAIND

Country music comes naturally for Aaron Lewis. In fact, the Staind frontman never strayed very far from country. It's something that he grew up with. It's something that he comes back to. It's something that inspires him. It's something that's in his blood. Hints of that are present in the stripped honesty and acoustic melodies of Staind hits such as "Outside," "It's Been Awhile," and "So Far Away." However, Lewis fully shows that spirit on his forthcoming five-song Town Line debut solo release for Nashville-based Stroudavarious Records and, most prevalently, via its first single, "Country Boy." With a little help from legends Charlie Daniels and George Jones as well as genre stalwart Chris Young, Lewis tells his story like never before on the song.
